

# NP-7A

## PORTABLE BAG CLOSER

The Newlong NP-7A portable bag closer is a high-speed industrial bag sewing machine designed for secure, reliable closure of paper, woven polypropylene, burlap, and jute bags. Trusted worldwide across agriculture, feed, seed, fertilizer, pet food, milling, and chemical industries, the NP-7A delivers consistent chain-stitch sealing performance in demanding production environments.

Capable of speeds up to 1,700 stitches per minute, the NP-7A supports both medium- and high-volume bagging operations while remaining lightweight and easy for operators to handle. Its integrated thread cutter improves workflow efficiency and reduces manual trimming, helping maintain throughput at filling lines, warehouses, and packaging stations. The durable industrial construction ensures long service life even in dusty, abrasive, or continuous-use conditions common in bulk packaging facilities.

<b>SPEED</b>	1,700 ± 200 r.p.m (~5-8 seconds/bag)
<b>STITCH LENGTH</b>	8.5 mm (fixed) / 3 stitches per inch
<b>NEEDLE</b>	DNx1 #25
<b>CUTTER</b>	Automatic Thread Cutter
<b>BAG MATERIAL</b>	Kraft Paper, Cotton, Hessian, Jute, PP/PE woven cloth and more
<b>OILING SYSTEM</b>	Oil pump lubrication
